

## A Beautiful Heart—Uncle Tom

Do you think the appearance of someone is important? I thought yes before I met this person—Uncle Tom. He is not so good-looking, but he is good-tempered and intelligent. He changed my mind after I know about him!

Uncle Tom is my dad's friend. He is 40 years old. His appearance is just like a chef, with a beard, freckles and sideburns. He is about 170cm tall. He often wears a T-shirt.

At first glance, I thought he was a bad guy, so I refused to talk with Uncle Tom.

However, once my dad and mum went on a trip. Therefore, they took me to Uncle Tom's house. I came to his house at the first time. I was surprised that it was neat and tidy. After staying with him for a while, I found that he is assiduous and caring.

Uncle Tom is a doctor. He makes his health top priority. Therefore, I couldn't find any snacks at his house. Also, he is a master of cooking. He cooked food with no oil. Although being a doctor is busy, he reads books in his spare time. He is a diligent person. He thinks that 'Health is over wealth' so he goes jogging every morning.

Uncle Tom is also a humorous person. He told me a lot of interesting experiences about his work. Besides, he can be easy to make up stories. He has a lot of imagination and creativity. He would tell me a story before I go to bed.

After staying with Uncle Tom, I changed my mind and fall in love with him. He became my role model because of his personality, and I am looking forward to seeing him next time. I will never forget the brilliant time staying with him! Never! Never! Never!
