

I was a bird with magical powers, I could turn myself into anything I want. It was awesome! I lived in CNEC Christian College since I was a fledgling. Therefore, here is my home.

Last Sunday, I heard some sound of flowing water, so I flew into the washroom. I couldn't believe what I had seen — three naughty students were playing with the water. I was mad. I followed them to their classroom, they threw away the paper which only used one side, 'How dare they did this!' I cried.

After that, they went to the playground for PE lesson, but they still turned on the air-con. Also, I saw the screen of computer was still on. They never turned off the computer! They were so wasteful. I could no longer hide my angry. I must teach them a lesson.

I turned into a horrible ghost and shouted to the students, 'You are hurting our Earth! You are wasting our resources!' The students were afraid of me. One of them was shaking his legs, one of them shook in fear and one of them used his nervous voice and stammered, ' I...I am so ... so sorry. Please ...Please forgive us... us!' I answered ghastly, 'You must make some changes!'

The students groaned, 'How can we change?' I suggested. 'Turn off the air-con and computer before you leave the classroom. Always use both sides of paper before throwing it away. Remember to protect our Earth! They nodded their heads and promised me to have good behaviours.

Finally, the students had a lesson about owning up to one's mistake and saved energy and resources.
