Our fond memories

Being your students for almost four years, our class undoubtedly shared lots of **indelible** memories with you. Your leaving is definitely **sorrowful** and **devastating** news to all of us.

Remember that time when we went camping as a class. I will never forget that night we spent together. Seeing our **zealous endeavours** for the final examination, you suggested that all of us go on a little expedition. After a whole day of having fun, we exhausted all of our energy by midnight. We decided to centre around the campfire we set up and talk about our lives. We shared everything about ourselves to one another, from our childhood memories to life experiences and to our dreams. In the midst of that, I felt like we were not just teachers and students anymore. With your **friendly vibe**, it felt **as if we were friends**. I bet all of us had the same feeling.

You are always my biggest **inspiration**. Every time I talked with you, your words gave me **insight** into my life and motivated me to keep going. Being your student is certainly one of the most blessed and **enchanting** things that ever happened to me.

I will miss you!

As my **thought-provoking** muse, you have taught us lots of valuable lessons. The one that benefits me for the lifetime is definitely your **perseverance** to pursue your **aspiration fearlessly**.

Travelling **across the globe** to work in Hong Kong, you must have faced many difficulties, like **homesickness** and the **struggle of language barrier**. However, you might not have noticed, it is **conspicuous** that your perseverance and your passion for your job have got you through all of the **predicaments**. You told us that being a teacher overseas has been your dream since you were a kid. It is certainly **no easy task** to make the decision to come here. But **with your fearlessness and your enthusiasm**, you succeeded! It stimulates me to think about dreams and my future which were the things that I had never thought before since I was too scared and lost. **Without your encouragement and wise advice**, it is impossible for me to get to know myself so well. With you as my role model, I want to be a teacher too. I want to steer my confusing students to the right path. I want to have a friends-like relationship with students.

Thank you Mr. Jones. I've found my purpose in life and I know I cannot achieve it without the **unwavering determination** and **persistence** like you have. Last but not least, we are all **rooting for you** and we will miss you. Come visit us when you have time.
