

### ***About Hong Kong Adventure Farm***

Welcome to Hong Kong Adventure Farm! Hong Kong Adventure Farm was established in 2010 and it is located at the remote area in Sai Kung, where you can enjoy a short excursion or the spectacular scenery here. We spare no effort in providing Hongkongers with a decent place to relax and to isolate them from the hustle and bustle of the city. On the other hand, if you are looking for an adventurous holiday, we've also got you covered as you can take part in a variety of thrilling activities, ranging from rowing to hiking here!

### ***Top three things to see and do***

Let's get started! What makes our farm differ from others is the unique Farmer's Train, which can bring you all over the farm conveniently. Isn't it amazing? You can have your journey start at the main station and go to different destinations by train! Some of you may prefer exploring the farm on foot but you may miss the marvelous opportunity to witness the magnificent views of different parts of the farm, including the stunning waterfall, expansive lake and scurrying horses on the ranches. Believe us, the experience will be extraordinary when you enjoy these breathtaking views on a fast-moving train! So, what are you waiting for? Let's get on the Farmers' Train and decide what will be your next destination.

After five minutes, the train will stop by a hill, and you can see a stunning waterfall. This place could be one of the best places you should visit in our farm. What may surprise you is that the waterfall is 100% natural, not artificial! We're preserving these areas so that you can feel the wonder of nature. Next to the waterfall is an Instagram-worthy location where you can capture this valuable moment and share it with your friends! They must like it! At the same time, we set up hiking trails where you can take your family on a half-day excursion. On the peak, you can enjoy a panoramic view of the entire farm. Don't forget to go on a hike!

However, the excitement does not end just there. If you go further by train, you will arrive at Lake Side Station. As the name suggests, you can see a large, deep, and clear lake which acts as a mirror of the sky. By the lake instead of high-end bars and restaurants, you may like to visit the lake-side coffee shop, sipping classic coffee and indulge yourself in a relaxing leisure time. Through the windows, you can see the seagulls playing with each other, fish jumping out of the water and people sailing their boats! It wouldn't be an overstatement to say the lakeside is a photographer's dream. It is the lakeside area that gathers most of the fun on the farm!

Are you ready to let us take you on an incredible journey? Let's start exploring Hong Kong Adventure Farm!
