

About Hong Kong Adventure Farm

Providing a vast variety of outdoor activities, the Hong Kong Adventure Farm located in Sai Kung is a utopia in the bustling metropolis. The scenery in our farm is no usual outdoor views but truly spectacular views that can help provide temporary reprieve from hectic city lives by connecting urbanites with the nature. Established in 2010, our farm has always been one of the most popular sites for people at all ages. We suggest that you either take bus route 87B or the MTR, and the nearest exit (from the entrance main station) would be Exit A. Also, feel free to call 73876008 — the mobile number of our Visitor Information Centre in case you need any help upon your arrival.

A brief description of various activities will be provided in the following. We hope you all can enjoy yourselves on your first visit!

Top three things to see and do

Thanks to the stunning landscape of our farm, ranging from waterfalls to lakeside, from mountains to forest, a wild range of activities are covered, providing you all with a holistic refreshing experience! The following activities are the must-do things many of our visitors recommend that you will not want to miss. Make sure you check them out during your time spent here!

1. Horse-riding

It is definitely a rare opportunity to ride on a horse nowadays anywhere, let alone in a highly commercialized city with few rural places like Hong Kong. It is a great chance for children to learn more about animals through physical interaction, making the horse-riding session the most-visited activity by families in our farm. Remember to treat the horses gently while enjoying your ride.

2. Kayaking

One third of the area of our farm is occupied by the lake, where you can kayak with your friends or just by yourself, while enjoying the breathtaking views nearby. To join the activity, you can simply go to the lakeside station and borrow a kayak after a short briefing session. Please don't forget to wear a life jacket. Safety always comes first!

3. Railway

Want to take a glimpse of the entire farm? We got you! You can get on the train railway and travel around the farm without getting your legs tired. Don't worry. You won't get bored while taking a good look at the farm – there will be an introduction to the history of our farm and other biological fun facts given by a guide on each train, making the activity not only enjoyable but also educational. You can even feel the breeze on your face in the presence of favourable weather!

It is the diversity of the activities in our farm that makes it worth visiting. There are so many more worth-joining things to do. Make sure you utilize your time well and enjoy yourselves!
