

My Friendly Classmate: Arone

Have you ever met my childhood friend who happens to study in the same secondary school as mine? Who is he? He is Arone, who is an interesting person in our school.

Let me tell you more about Arone's appearance. Arone has two sparkling big eyes, an average-sized nose and quite a small cherry mouth. He is about 150cm tall. He has a round face that is as big as a volleyball.

Arone is a patient person. When I don't understand how to complete my homework, he will teach me until I understand that. He is also generous. He often shares his delicious snacks with me.

Playing football is one of Arone's favourite hobbies. His dream is to be a famous soccer player. He has participated in many competitions and won. Besides playing football, he also likes watching movies most. His favourite movie is Avengers. The character he likes is Iron Man because he has a brave and gentle heart. He is committed to saving people from danger.

Arone is my best friend. I hope we will always be good friends forever.
