

Here Comes the New Family-Friendly Facilities

Family, it's for family everywhere!

Throughout these few years, the majority of guests visiting local hotels have turned from businessmen and tourists to family. Thanks to the pandemic which affects the tourism and economy in the world, many people are cooped up at home even when it's a long holiday. A new trend has appeared as parents like to bring their kids for activities and one of the events called 'staycation' is now being the top of their choices. Are you one of the parents looking for a family-friendly hotel to enjoy quality family time together? Peach Tree Hotel has a lot to offer. Read on to unravel the mysteries of the new changes in our hotel if you're curious!

There's rainbow in the pool!

Every child likes to play with bubbles and water. We're certain that your children are not an exception. Although there is already a wide array of swimming pools in our hotel like the world-standard one for competitions and another shallow one for learning and having fun, we understand that your kids might really want a specialized one for them. Children like a diverse spectrum of colours and every one of them must be on cloud nine when they see a rainbow. Because of this, we've built a soap bubble pool and calculate the refractive index of the ingredients of the soap bubbles. When natural light is refracted on the bubbles, a spectrum of seven colours is formed on it. It is like having rainbows in the pool. I bet children would be ecstatic at their first glance of seeing that without a shadow of doubt!

A wild task for your family?

Have you ever thought of playing a room escape game in a hotel? Our hotel offers two escape room experiences of different settings: the first one is the mountain part where lots of events such as outdoor wedding are held while another part takes place in our residential area. In the mountain area, there are new fruit farms, campsite and even a small zoo where you can see the only three alpacas in Hong Kong. We organize a task for families and you have to find all the evidence in order to leave the hotel. You could only get the clues you need after you visit the fruit farms, take care of alpacas and build the camp together on the farm of family. Families could have a chance to deal with difficulties and overcome all hurdles together on a day so that they could be familiarized more with one another. The mountain part of our hotel is rebuilt to provide family-friendly activities. Doesn't it sound interesting? Let's accomplish a task together.

Private beach for families only!

Despite the fact that there is already a new pool for kids, there is one more facility which is a private beach open to families only! On the beach, there are various kinds of shells, sand volleyball venue and even ships for sailing to the middle of the sea to catch fishes. Families are allowed to identify the shells, catch fishes and bring them all back home. It is a family activity that our hotel waves all family

members to enjoy having fun and taking part. This site is also suitable for men and women of all ages because you could do whatever you want on the beach with your family.

Family-friendly room

With the increasingly member of families visiting our hotel, to prevent breaking families into a few groups, our hotel has combined two normal rooms together to be one connecting family room which can accommodate up to eight guests. Family members could stay together without knocking on another door and it just feels like home. In the fast-paced Hong Kong, it seems rare to spend time with our family and it's hard to decide where to go even when we are free. Just come to Peach Tree Hotel, where we provide a wide range of facilities and service for family. What are you still waiting for? Call us at 2818 0000 for enquiries of a luxurious trip with your family.
