Dear Diary,

'Happiness is having each tiny wish comes true ...'

I had a tiny wish on that day --- I needed to compete with other schools in a speech competition today! Therefore, I got up early and met my partner. I woke up, feeling blue. I didn't know why. Maybe I was very anxious and nervous.

When we arrived at the destination, there were many people who were going to compete with us. My God! The people there were more than I thought! The competition started about 20 minutes later. We were the sixth team to perform. The people who competed with us were elite. I was a nervous wreck when others were speaking!

Time flies. It was our turn! We needed to compete then. I was zero in on it but I tried my best to perform well. Although I felt concerned, I didn't make a mistake. Oh! I was very relaxed after the performance!

After three hours, the competition finished. Great! Then I could relax. I didn't care about the result because I was very tired then! When I knew that I got the runner-up, I was very satisfied with my result. This was one of the most wonderful moments in my life.

After the competition, I was on top of the world. I saw a rainbow over the sky --- my tiny wish came true! I thought we won the prize because of our hard work.

I have no secret of success but hard work. What is the tiny wish of my future?
