Are fashionable clothes important to teenagers?

Many teens are now pursuing fashion, and some even spend a lot of money buying some fashionable clothes. However, I believe that fashionable clothes are not very important to teenagers.

My first reason is that fashionable clothes will keep changing. When you pursue a fashion trend, you may need to spend a lot of money buying new fashionable clothes. Many teenagers do not have any job and cannot make money on their own. They need to rely on their parents. If they continue to pursue trends, they will put pressure on their parents.

My second argument is that many fashionable clothes are not suitable for teenagers. Some fashionable clothes can be very skimpy. Why bother to pursue these things? Indeed, you do not have to be fashionable so as to be beautiful. Putting on your own style is your best look.

Finally, most teens are educated to be environmentally-friendly. It takes a lot of resources to make a piece of clothing. If we keep buying new clothes, we will naturally discard some old ones. We, being well educated, should take the lead in cherishing resources.

To summarise, fashion clothes are not important for teenagers. It is best to be yourself in your favourite clothes. Do not follow others blindly.
