Are fashionable clothes important to teenagers?

Some people regard clothes as a means of covering the body and keeping warm. However, some think clothes, fashionable clothes in particular, serve different purposes.

To begin with, do you know you can know a lot about a person by observing the clothes they wear? If you wear some fashionable clothes, your attitude may be seen as positive. For example, you have an interview and you wear some sloppy clothes. Do you think that the interviewer will have a good impression of you?

My next argument is wearing fashionable clothes can help you to attract more people. Then you can have more chances to meet some new friends. For instance, if you wear some fashionable clothes, some people will feel curious about your clothes. They will talk to you and make friends with you.

Besides, fashionable clothes can help teenagers to express themselves. As teenagers grow up, they form their self-identity through the clothes they wear. If they wear fashionable clothes, they may feel good about themselves and have high self-esteem.

In short, fashionable clothes are important to teenagers since they can help leave a good impression on others and help express oneself. Furthermore, they also boost self-confidence.
